

GREEN BIOACTIVES LIMITED

(IN PROVISIONAL LIQUIDATION)

BUSINESS OVERVIEW

An exciting opportunity exists to acquire the assets of Green Bioactives Limited (in Provisional Liquidator, a UK-based plant biotechnology company pioneering the sustainable production of high-value bioactive ingredients using plant vascular stem cell technology. This innovative approach enabled the company to cultivate targeted plant compounds in controlled bioreactors, eliminating the need for whole-plant harvesting while ensuring consistency, purity and scalability.

Through significant investment in research and development, Green Bioactives developed a proprietary platform capable of producing 10–50 times greater yields of active compounds compared to traditional plant extraction methods. Their technology was designed to support commercial applications across the nutraceutical, cosmetic, and pharmaceutical industries.

OPPORTUNITY HIGHLIGHTS

- An environmentally sustainable and highly scalable technology platform for producing high value bioactives without reliance on traditional agriculture.
- Technology platform suitable for expansion into the nutraceutical, pharmaceutical and cosmetics sectors, which all have an increasing demand for sustainable plant-derived ingredients.
- Over £5m invested in development, clinical validation and IP protection.

ASSETS AVAILABLE

- A robust patent portfolio including three patent families with a number of international patents at various stages of prosecution
- Trade mark protecting the Green Bioactives corporate brand
- Process know how & technical records
- Plant cell cultures
- Specialist lab equipment

DEADLINE

Deadline for formal expressions of interest is set for 5pm on 30 July 2025

FURTHER INFORMATION

Requests for further information should be addressed to Emily Muir or Molly Greenhow of SIA Group who are acting as agents. Contact details have been provided below.

Access to additional information will be provided on receipt of signed NDA. All offers to be supported by proof of funding.
