

# PROJECT PIONEER

## BUSINESS OVERVIEW

Gordon Brothers has been instructed on the sale of the business and assets of Project Pioneer, an interdisciplinary product development consultancy operating across physical and digital domains.

The Company supports clients from early-stage insight generation through to concept development, prototyping, and design optimisation, delivering commercially viable solutions across medical and general commercial markets.

Project Pioneer is recognised for its integrated approach, combining research, problem-solving, and industrial design to address complex challenges and uncover new market opportunities. Delivery is achieved through a flexible operating model, drawing on a combination of internal expertise and an established network of specialist partners where required.

The business has a strong track record of translating ideas into commercially relevant outcomes, underpinned by repeat engagements and established client relationships. An acquisition represents an opportunity to build upon a proven platform, with scope to scale capabilities, broaden sector exposure, and accelerate growth under new ownership.
